Dear Court,

I present two filings for the December 09, 2025 hearing. These filings concern my right to safe participation and my right to understand and participate in the proceedings.

The first filing is my **Demand for Video Hearing / Notice of Impossibility of Physical Attendance**. This filing establishes that physical attendance is impossible due to documented danger, obstruction, and government-created conditions. I am prepared to participate fully by video, and the December 09 hearing must be conducted with my participation by video. I require the Court to provide all instructions and connection details in English.

The second filing is my **Formal Objection to the Use of a Dutch Translator**. I require the hearing to be conducted entirely in English. The Court communicates with me in English, I file in English, and I do not speak Dutch. A Dutch-language hearing or a Dutch translator removes my ability to participate and destroys the accuracy of the record.

Both filings are attached as PDFs and must be placed in the case file for the December 09, 2025 hearing.

Respectfully,
jessica leigh collins
